

GROEN SEBENZA PHASE II

Call for Two Year Internships

The Groen Sebenza Phase II Programme is a bridging into work programme funded to the value of R300m for the next three years. GS Phase II aims to recruit 1050 unemployed graduates (diploma – PhD level) and place them nationally in different organisations (government and non-governmental) where they will be incubated (trained and mentored) to further develop their competence and confidence in the management of environment/biodiversity.

The programme **goals**

1. Enable workplace-based learning for graduates aimed at building and strengthening their capacity at various levels.
2. Creation of job opportunities and possible permanent placement beyond funding.
3. Transformation and organisational strengthening - strengthen different organisational development aspects including transformation in its totality, mentoring, proactive skills and planning to better respond to organisational mandates and other national priorities.
4. Research informed - through research, develop a 'live' skills intelligence system that will enable the sector to proactively plan for skills development and track and trace the utilisation of the developed skills.

Name of Host Organisation in partnership with The South African National Biodiversity Institute (SANBI) is pleased to announce a call for applications for incubation in the following fields:

Field	Location (Where the Intern will be based)	Required Qualification	Number required	Stipend rate

Application procedure

Intern: Environmental Officer

Are you seeking an exciting career path in the environmental planning field?

A progressive environmental consultancy is looking for a resourceful Environmental Officer to focus on the roles outlined below:

- Assistance with field visits and mapping of development footprints,
- Conducting environmental control site visits and completing environmental audits,
- Assistance with drafting of Environmental Management Programmes,
- Provide support with the preparation of environmental impact assessments
- Provide support in the preparation and submission of environmental proposals

Type of individual required:

- A genuine interest in the field of environmental assessments
- A love for the environment and a keen willingness to learn new skills
- Critical thinking and the ability to work on your own at times without supervision
- Productive and goal-orientated approach to your work plan

Requirements:

- Fluent in English
- Qualification: Minimum Diploma/Degree in Environmental studies with environmental law/policy, environmental impact assessment, aquatic/freshwater assessment, and geographical information systems as part of studies.

The position offers an enabling workplace that will allow you to grow in a promising career path. You will receive on-site training to understand and apply the various environmental processes, pieces of Environmental legislation and specific Environmental management Acts.

This is an entry level position and learning opportunity where a stipend will be paid. Please email a concise CV and cover letter to info@ohanaenviro.co.za

Closing date: 10 October 2022

SANBI reserves the right not to fill these internships.

If no response has been received within 40 days of the closing date, candidates may assume that their applications were unsuccessful.
